

# National Data on Child and Family Outcomes: Why? How? What Next?

Kathy Hebbeler, ECO Center at SRI International

Lynne Kahn, ECO Center at Frank Porter Graham Child Development Institute

Lauren Barton, ECO Center at SRI International

Charlie Greenwood, ECO Center at Juniper Gardens Children's Project

DEC Annual Conference 2007  
Niagara Falls, Ontario Canada

# In This Session

---

- Why measure outcomes?
- What is the ECO Center's role?
- What are the federal reporting requirements?
- How are states meeting reporting requirements for child and family outcomes?
- What is the COSF? How is it being implemented?
- What does preliminary research suggest about the reliability and validity of the COSF?
- Implications? Reactions? Discussion...

# Why Measure Outcomes?

# Critical Events in Accountability for Programs for Young Children with Disabilities

- 1993 GPRA (Government Performance and Results Act) passed
- 2002 PART finds there are no data on outcomes for Part C or 619
- 2003 OSEP begins to ask states for EI child outcome data (and funds the ECO Center!)
- 2005 OSEP releases federal reporting requirements

# PART Findings: “Results Not Demonstrated” (2002)

---

## Part C

“While the program has met its goal relating to the number of children served, it has not collected information on how well the program is doing to improve the educational and developmental outcomes of infants and toddlers served.”

## Part B Preschool

“The Department has no performance information on preschool children with disabilities served by this program.”

# GPRA to PART: Intervening Years

---

- Special Education (K-12) –
  - National study found poor outcomes
  - Push to include students with disabilities in statewide assessment systems
- Early Childhood
  - Debate about whether child outcomes should be measured at all
  - Much discussion of the many problems in trying to measure outcomes for young children with disabilities

# Measuring Child Outcomes for Part C and 619

---

- The PART findings put an end to the debate about whether or not to do it
- Unfortunately, almost no progress had been made in the intervening years as to HOW to do it

# OSEP's Response to PART findings

- Required states to submit outcome data in their Annual Performance Report (APR)
- Funded the Early Childhood Outcomes Center to do research, make recommendations, and assist states in developing systems to measure outcomes

# Why Collect Outcome Data?

---

- Federal government is the driving force behind the move to collect outcome data
- However, many state agencies and local programs understand the value of outcomes data for their own purposes
  - To document program effectiveness
    - Increase in funding?
  - To improve programs
    - Identify strengths and weaknesses
    - Allocate support resources, such as technical assistance

# What are the Federal Reporting Requirements?

# Origin of the Child and Family Outcomes

---

- ECO Center held stakeholder meetings followed by public comment period
- First, collected themes and ideas
- Then, drafted and re-drafted outcome wording

# Result of Process: ECO Center Made Recommendations to OSEP

---

Recommendations on:

- Child and family outcome statements (February 2005, revised April 2005)
- Categories of information that should be collected about these outcomes (May 2005)

Read more at [www.the-eco-center.org](http://www.the-eco-center.org)

# OSEP Reporting Requirements: Child Outcomes

- Positive social emotional skills (including positive social relationships)
- Acquisition and use of knowledge and skills (including early language/communication [and early literacy])
- Use of appropriate behaviors to meet their needs

# OSEP Child Outcome Reporting Categories

---

Percentage of children who:

- a. Did not improve functioning
- b. Improved functioning, but not sufficient to move nearer to functioning comparable to same-aged peers
- c. Improved functioning to a level nearer to same-aged peers but did not reach it
- d. Improved functioning to reach a level comparable to same-aged peers
- e. Maintained functioning at a level comparable to same-aged peers

3 outcomes x 5 "measures" = 15 numbers

# Reporting Schedule

---

## Reported February 2007

- Entry information: Age expected? Yes, No
- One time requirement
- Reported for children entering between July 1, 2005, and June 30, 2006

## Due February 2008

- Data in reporting categories at exit for all children who have been in the program for at least 6 months
- Must be reported for the year beginning July 1, 2006
- Repeat with next year's data in 2009, etc.

# State Decisions Related to Building a Child Outcomes Measurement System

- Who provides the data?
- What assessments will be used?
- How often will data be collected?
- When is data collected? (When is it reported?)
- Dealing with multiple sources?
- Dealing with different assessments?
- Etc., etc.

# ECO Family Outcomes and OSEP APR Requirements [Part C only]

## ECO

- Understand their child's strengths, abilities, and special needs
- Know their rights and advocate effectively for their children
- Help their children develop and learn
- Have support systems
- Access desired services, programs, activities in their community

## OSEP

- Percent of families participating in Part C who report that EI services have helped the family
  - Know their rights
  - Effectively communicate their children's needs
  - Help their children develop and learn

# OSEP Reporting Requirements Related to Families: Part B (3-21)

---

- Percent of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities

# State Decisions Related to Collection of Family Data

---

- What kind of family data to collect?
- How will data be collected?
- If survey, what survey will be used?
- How often will data be collected?
- Sample?
- When is data collected? (When is it reported?)
- Etc., etc.

# Keeping Our Eyes on the Prize

What are we looking for?

High quality state and national data on child and family outcomes for children and families participating in Part C and Preschool Part B programs
